3. Performance indicators and benchmarks

Performance indicator	Benchmark	Statement of achievements*
1. A reduction in the number of remote Indigenous communities that have limited or no public internet access.	(a) New or expanded public internet access to 19 approved communities annually.	4 communities received internet facilities at 30 June, a further 0 at 12 August, a further 11 at 11 October, with the remaining 4 carried over to the 2010-11 implementation plan.
2. An increased number of people in remote Indigenous communities that have received training in information technology and internet use.	(a) Training in information technology and internet use to 19 approved communities annually. (b) Training received by 19 agreed participants annually.	Training was successfully delivered to 19 communities. Only some training was delivered at Angurugu, the CLOs were transported to Umbakumba and received full training there. Participant numbers have been consistent across most sites with 35 library staff receiving training and 74 community members being trained.
3. An increase in transactions and communication between remote Indigenous communities and government agencies, businesses, communities and families.	(a) All communities receiving new or expanded public internet access have internet facilities in use.	15 communities have internet facilities installed under this Agreement in use.

* Insert quantitative and qualitative achievements against performance indicators 1 and 2. For performance indicator 3, provide a statement of qualitative achievements as an overall assessment across all communities.
