**To:** National Broadband Network Taskforce  
**Subject:** Submission toRFP

Hello,

My name is Craig Bradley and I am hoping this submission to you helps in some way to bring Australian broadband up to world standards. I moved to Perth in 2005 with my wife from the U.K. and found after buying our house in Thornlie that we could get Broadband installed at home but there were no more ports available to the general public at our exchange in Maddington. We are trying our best to stay sane with dial up, but using web cam with Janine's parents in London is an impossibility. I have approached local and state newspapers and state and federal members of parliament without any joy, I have resigned our fate to slow ancient dial up.

Hope you can help.

Kind Regards

Craig Bradley
